

SEMINARS

As a sport oriented association, the SCSC seminar commission (The JO), organizes not only seminars (world class move (skiing, mountain bike, climbing, walking, bowling...)) that make you learn (lecturers), but also downhill bike, golf, friendly atmosphere, fun, good meal and housing also belong to our educative events

SPORT EVENTS

The SCSC provides chiropractic care at sport events. We already officiate at regular events such as the Vidy Beach Volley, the Lausanne Marathon and Athletissima, we plan to expand our involvement nationwide with your help.

SWISS CHIROPRACTIC SPORTS COUNCIL

Where Swiss Sport Chiropractors Meet

MEMBER OF FICS

The Swiss Chiropractic Sports Council (SCSC) is a national organization founded in 1996 by four Swiss chiropractors: Drs Noirat, Picard, Zahner and Golay with the aim of uniting Swiss sports chiropractors.

SCSC

At the time of this publication the membership accounts to 76 chiropractors. This represents more than 40% of all Swiss chiropractors, probably near a world record.

The SCSC is a full member of FICS (Fédération Internationale de Chiropratique du Sport). SCSC members have held posts at FICS as president (Roland Noirat), as Secretary General (Roger Picard), as Chief of Finance (Chris Wegelin), and as Chair of Communication (Philippe Roulet).

The only requirement to join the SCSC is to be a member of Chiro Suisse.

SCSC Executive Council

President	Roland Noirat
Treasurer	Chris Wegelin
Board Member	Nils Osseiran
Board Member	Adrien Aymon
Board Member	Patrick Ryser

FUTURE

It is very important for the SCSC that the Executive Council reflects the multiplicity of our country.

Most of the Board members have been officiating for many years. Renewal is on the agenda. As of May 2015 we have a new president and we would like to keep the momentum and welcome new members to the Board. In case of interest just get in touch with anyone of the committee.

GOALS

The SCSC shares the same goals as FICS but at the national level:

1. to ensure that all athletes in all sports have access, when needed, to the specialized skills of chiropractors as part of their sport health care
2. to promote excellence in postgraduate education and practice in sports chiropractic
3. to represent the chiropractic profession in sport nationally
4. to ensure that the highest level of professionalism is displayed by its member
