

What is the International Certified Chiropractic Sports Practitioner Program?

The International Federation of Sports Chiropractic / Fédération Internationale de Chiropratique du Sport (FICS) is proud to provide this unique program of seminars combined with distance learning to you, the dedicated sports chiropractor.

The Education Committee of FICS has endeavoured to put together some of the world's finest lecturers on sports chiropractic for this program. The aim is to set the standard in sports chiropractic education by providing a program that is both theoretical and practical. The seminars and on-line self study program (eLS) will be required for most chiropractors.

This format is designed to accommodate chiropractors who have already obtained a CCSP or DACBSP or equivalent. Furthermore, the program will require you to produce a paper on sports chiropractic, organize a poster presentation, or have experience working outside the office at a sporting event and/or with a team.

Why obtain an ICCSP ?

FICS produces a well-rounded individual chiropractor who is qualified to work at sporting events throughout the world.

It is the minimum qualification to be part of a FICS chiropractic delegation to a national or international event such the Olympics.

If you are serious about being a great chiropractor and getting the best results for your patients, then this practical seminar is a must. You do not need to be interested in sports chiropractic because there will be relevant information provided for the general chiropractic clinic.

REQUIREMENTS

Only chiropractors from accredited colleges can enrol the ICCSP program.

Chiropractors without a postgraduate degree:

- Complete Module 1 (Lower Extremity Hands-on) and Module 2 (Upper Extremity Hands-on). Complete the FICS on-line program (includes lectures, notes and videos).
- Document out-of-clinic experience or as Team Chiropractor at a sport club or document research experience relating to sports chiropractic.
- Provide a current CPR certificate.

Chiropractors with CCSP:

- Complete one of the two modules.
- Document out-of-clinic experience or as Team Chiropractor at a sport club or document research experience relating to sports chiropractic.
- Provide a current CPR certificate.
- No eLS program is required.

Chiropractors with DACBSP/RCCSS(C), qualifying Masters degree /PhD:

- Document out-of-clinic experience or as Team Chiropractor at a sport club or document research experience relating to sports chiropractic.
- Provide a current CPR certificate.
- No eLS program is required.

Tuition fee is required for the eLS at registration and an administrative fee for registration and certificate.
