

EXTREMITIES

Saas Almagell, Wallis, Switzerland

After an extremely successful seminar with SCSC's best friend, Dr Lindsay Rowe, we won the challenge to find a brilliant successor. Brian has not only a superb CV but is a highly qualified teacher in his field which includes extremity adjusting. The JO have experienced Brian's talent in numerous situations be it on the FICS board, at seminars or on the sport field. He is one of the most entertaining and interesting lecturer to listen to. You will come back from this mostly hands on seminar not only with better skills but you will learn how to perform the most useful orthopedic test or chiropractic manipulation.

Final Program

Monday to Friday

January 26 to 30, 2015

An SCSC and
ASC approved
20 hours CE credits

ments

Dr Philippe Roulet DC
SCSC Communication Chairman

Brian Nook

DC, DACBSP, ICSSD, FICC

Dr Brian Nook is a Diplomat in Sports Chiropractic and has been a team physician at many local, national, and international sporting events. He served as a team chiropractor at 4 Olympic Games (Barcelona, Atlanta, Sydney and Salt Lake City), 3 All African Games and 3 World Games.

After his graduation in 1983 from Northwestern College of Chiropractic (MN, USA), some years of private practice, 3 years of teaching in at the Technikon Natal Department of Chiropractic in Durban, South Africa, some private practice again, he became the **School Dean for Chiropractic and Sports Sciences at Murdoch University for 6 years and Associate Professor at Murdoch University for 10 years**. He is currently the Dean/Head of College at the Australian College of Physical Education at Sydney Olympic Park.

Dr Brian Nook has a strong interest in the manipulative skills needed to practice chiropractic, not only in the application to the spine, but to all joints of the body especially the extremities. Developing this skill in students is an exciting challenge. He looks forward to the awe of the students, the eagerness to learn, their appreciation of the unknown, the mastering of difficult skills, and the realization that the patient and the care they receive is the peak of professionalism.

Please note that as the allocated rooms in the Zurbriggen hotel tend to run out pretty fast, the manager may offer to set you up in a nearby hotel, if available.
