TRAVELING BY CAR

Saas Fee is a car free village.

Please note that a public parking garage can be used at the entrance of Saas-Fee. You can unload your luggage in the unloading zone A or B of the car park and contact the Hotel. Electric taxi shuttle to and from the car park on arrival and departure is free of charge.

Programme

Alexander

is an AECC graduate and currently practicing in Germany. He holds a PhD in Clinical Biomechanics and an MSc in Medical Ultrasound. In addition to treating athletes in practice he was part of medical teams for national and international sports events, including the FICS delegations for the 2009 and 2017 World Games. Since 2009 Alex is team chiropractor for the national league ice hockey team "Grizzlys Wolfsburg" and is engaged in interdisciplinary research projects in sports medicine. Furthermore, he is a member of the Medical Task Force of the German ice hockey league and lectures on various topics such as clinical biomechanics, research methods and the FICS ICSSP program.

Boris

is a sports medicine physician with interests in the many areas of sports, health, exercise and science. He studied in Lausanne, specialized in internal medicine and sports before perfecting his research and clinical skills at Stanford University (USA). He was the Head of Sports Medicine at the Swiss Federal Institute for Sports (Magglingen) before moving to Geneva as Health & Performance medical director at the Swiss Olympic Medical Center, Hôpital de La Tour. His ever growing experience aims to serve athletes in their pursuit of greatness and success, and also non-athletic people on their way to a better active and productive health through movement and exercise.

Francois

is a French sport physiotherapist, osteopath and researcher. He currently works at the Physiotherapy Department of the Hôpital La Tour in Geneva and he is leading the Motion Analysis Laboratory. Formerly, he was Senior Physiotherapist in Aspetar/Aspire in Doha - Qatar. François focuses on applied science and published papers about foot/ankle injury prevention and foot core strengthening, electromyostimulation, relations between injuries and maturation in adolescent athletes and running biomechanics changes due to fatigue. He defended his PhD in 2012 and he is a certified senior lecturer for French universities. Francois also works as a reviewer for several peer-reviewed journals (Gait & Posture, Journal of Athletic Training, BMC Musculoskeletal Disorders...) and he is a member of the International Ankle Consortium.

All lectures will be in English
